YOUR FITTING TEAM

Based in Emsland, Emmert Fahrzeuge has been an expert provider of special vehicle solutions for over 25 years. We manufacture vehicles according to national and international requirements as well as customised vehicles to meet your personal needs.

More than 25 years of knowledge and expertise as well as modern machinery and innovative work processes guarantee that our vehicles are of the highest quality, functionality and safety. Emmert Fahrzeuge: Made in Germany, built for the world!

Our cohesion is our strength! At Emmert Fahrzeuge, all areas of the vehicle construction process are under one roof: Electronics and electrical engineering, metal construction, joinery, upholstery, paint shop and automotive workshop.

QUALITY AND SAFETY

Quality and safety are of key importance to Emmert Fahrzeuge: from vehicle planning to manufacturing and final acceptance by the customer. Our vehicles meet country-specific technology and environmental protection requirements as well as all European vehicle construction standards.

We guarantee that the materials we use, our production processes and the finished product meet the highest quality standards. We use state-of-the-art machinery in our production process and have a highly motivated team who always have your best interests at heart. The result is a high quality vehicle with cutting-edge technology which provides maximum safety wherever you are in the world.

RELIABILITY

We offer reliability through our ISO9001-certified manufacturing processes and our compliance with mandatory DIN and EN production standards. Furthermore, we adhere to international requirements to ensure that our products are manufactured according to country-specific standards and custom needs.

For us, reliability also means being able to count on a competent and well-trained team who can implement customer requirements. The skills of our employees are an integral part of our success. We are characterised by our friendly atmosphere: With us, you can rest assured that your projects will be handled competently and in a customer-oriented manner.

AMBULANCES

EmmertRescue I, II, III

Whether an accident or major event, whether for emergency responses or first aid – EmmertRescue models are built according to your service requirements. The construction of ambulances and rescue vehicles has been one of our areas of expertise for more than twenty-five years. Above all, the basis for the construction of our vehicles is the latest version of the DIN EN1789 standard.

We manufacture the following types of ambulances:

- Ambulance type A / A2: EmmertRescueI
- Ambulance type B: EmmertRescueII
- Ambulance type C: EmmertRescueIII

According to your wishes, we can modify all types of basic vehicles and, among other things, upgrade them to intensive care and transport vehicles, heavy-duty rescue vehicles and combination vehicles.

We use all types of chassis for our vehicles and are happy to build your emergency doctor's vehicle based on a car, van or SUV.

EmmertRescue: Optimally equipped, always ready

COMMAND VEHICLES

EmmertCrewVan

Whether fire or flood, for command or disaster control operations – Our EmmertCrewVan command vehicle is the leading vehicle for operational tactical control. Our command vehicles are equipped with state-of-the-art radio, communication and EDP technology and are manufactured according to DIN 14507 without exception. The construction of your personalised vehicle incorporates both your wishes and our combined experience.

The following subcategories including loading are possible:

- Command vehicles
- Crew cars
- Multi-purpose vehicles

We create the best possible basis for you to carry out every operation optimally, efficiently and safely. Whether a major event or disaster – with an EmmertCrewVan, you have a strong and reliable partner by your side in every situation.

EmmertCrewVan: Customised control operations

MOBILE UNITS

EmmertMobileCare

Whether providing aid to remote settlements or prophylaxis, for primary care or childbirth – EmmertMobileCare is your partner for mobile medical care.

Our mobile units consist of a chassis with a sandwich construction swap body. Regardless of the manufacturer, we can convert all chassis with a total weight of between 3.5 and 18 tonnes to a mobile unit. The body modules are designed to be variable: We can install doors, windows and steps to meet individual requirements and adapt the space to suit the vehicle's intended use.

Power supply, ventilation and air conditioning units can be installed according to your needs and can be supplemented with a sophisticated fresh water and drainage system. The result is a fully self-sufficient vehicle which is tailored to the exact area of operation and to your needs.

EmmertMobileCare: Versatile, global care

This approach allows us to construct a wide range of units:

EmmertMobileCare

Examination units for first aid & prophylactic care

EmmertFire

Fire service command vehicles

EmmertDental

Dental care units

EmmertChild

Mobile gynaecological and childbirth units

EmmertStroke

Mobile units for treating strokes

EmmertEye

Ophthalmological clinics for initial analysis

EmmertBloodDonation

Blood donation units

EmmertDialysis

Dialysis vehicles

EXPEDITION VEHICLES

EmmertExpedition

Whether mountain or valley, desert or snowscape – our expedition vehicles can reach (almost) any place in the world! We will gladly assist you in developing an expedition vehicle which is tailored exactly to your needs. Thanks to years of international experience, we are very familiar with country-specific requirements and can recommend and install the right vehicle parts for the region on demand.

When it comes to choosing the power supply, hot water supply, heating and fresh water requirements, we offer our customers specific, detailed consultation.

The synergy between the electronic components enables a self-sufficient journey to the surreal landscapes of our planet.

The selection of electrical appliances, veneers, floor coverings and elaborate leather trims for the vehicle range from minimalistic and practical to sophisticated luxury.

EmmertExpedition: Made in Germany, made for travel

VIP RESCUE VEHICLES

EmmertHighClass

Whether for state visits or representational duties – Our VIP rescue vehicles are as unique as your ideas. We can convert any base car or SUV into an EmmertHighClass rescue vehicle – regardless of the manufacturer. All vital medical devices can be integrated into the EmmertHigh-Class as well as into the vehicle system. The result: highly personalised rescue vehicles which make optimum use of space and feature luxurious interiors which meet the highest safety and technology requirements.

EmmertHighClass: Flexible design, premium quality

CUSTOM-MADE VEHICLES

EmmertExtra

Whether a custom-made design or a new development – We make your wishes come true. We never say never – we can convert anything with wheels! The close cooperation of our departments and our wealth of experience guarantee the development and implementation of tailor-made, bespoke solutions.
